

Our Businesses

Infinite Opportunities to Shine

BNP Paribas operates in over 83 countries and has expertise in all bank service sectors: retail, corporate investment banking, and investment solutions. This strategy balances the Group's portfolio and enables us to best respond to all types of clients.

BNP Paribas is composed of many smaller, locally run entities guided by headquarters, enabling our businesses to be flexible and adapt to local markets. The decentralisation principle also fosters greater employee investment and interaction in the workplace, with an abundance of opportunities to meet, counsel, and learn from our clients.

The relationship between BNP Paribas and our clients is built on trust. Regardless of transaction size, from financing a large project to building a new company to acquiring a new home, BNP Paribas demonstrates the same long-term commitment to all our clients and their projects.

BNP Paribas offers commercial, financial, managerial, and expert positions.
